SUMMARY

Highly motivated Full Stack web developer fresher with expertise in designing, developing, and deploying responsive websites using modern technologies like HTML, CSS, JavaScript, Tailwind CSS, React.js, Next.js, Node.js, Express.js, and MongoDB. Passionate about problem-solving and optimization, I thrive in creating efficient, scalable applications. I am a collaborative team player, I am committed to delivering high-quality, innovative solutions that drive project success.

TECHNICAL SKILLS like HTML, CSS, JavaScript, Tailwind CSS, React.js, Next.js, Node.js, Express.js and MongoDB And Github

PROFESSIONAL EXPERIENCE

Academic Projects & Experience

Project 1: Sentiment Analysis for a Social Media Platform (Feb 2025)

- Developed a sentiment analysis feature for a social media platform using Next.js, and Tailwind CSS.
- Designed a responsive UI to display analyzed sentiments, integrated user interactions, and implemented real-time feedback using React.
- Optimized performance and improved scalability by implementing efficient state management and API handling.

Project 3: Chatbot (Feb 2025)

- Created a responsive chatbot with an interactive UI.
- Integrated an API for dynamic and realistic responses.
- Handled user input using JavaScript and designed chat bubbles with smooth animations for all devices.

Project 2: Spotify Clone (Feb 2025)

- Developed a responsive Spotify clone with a custom audio player, interactive track list, and features like play, pause, and volume control.
- Implemented dynamic playlist management and seamless track transitions for enhanced user experience.
- Integrated real-time music streaming and user authentication for personalized playlists and user preferences.

LEADERSHIP EXPERIENCE

- Led a team in developing a fully functional website, ensuring seamless collaboration and efficient project execution.
- Managed troubleshooting and problem-solving to overcome technical challenges during development.
- Guided peers in understanding web development through mentoring sessions.
- Provided support in debugging, coding best practices, and structuring projects for better efficiency.

TRAINING/COURSES

- Web Development:** Learned HTML and CSS at Main Flow-Service Limited.
- Front-End Development:** Gained experience in JavaScript, React.js, and Tailwind CSS at Cognifyz Technologies.
- Communication Skills:** Enhanced communication skills through training at TCS ion
- Interview Techniques:** Improved confidence and presentation skills through focused training.
