SUMMARY

Enthusiastic Full Stack Developer with practical experience building scalable, responsive web applications using React, Next.js, Node.js, and MongoDB. Passionate about clean UI, efficient code, and collaborative problem-solving. Always eager to learn and contribute to impactful tech projects.

Technical Skills: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, Git, GitHub, TypeScript, Framer Motion, Radix UI, Lucide React

PROJECTS

SkillCertify – Online Learning & Certification Platform

React.js, Vite, React Router, Tailwind CSS, Framer Motion, Radix UI

- Built a responsive learning platform enabling users to enroll in courses, complete assignments, and earn verifiable certificates.
- Integrated client-side routing with React Router DOM and smooth animations using Framer Motion for a modern UX.
- Utilized ESLint, PostCSS, and Autoprefixer for code quality and performance optimization.
- Implemented clean, scalable UI components with Tailwind CSS and Radix UI for accessibility.

ScanFeast – QR Based Street Food Menu App

Next.js, TypeScript, Tailwind CSS, Radix UI, Lucide React

- Created a web app that digitizes Indian street food menus via QR codes for instant user access.
- Used Next.js and React for server-side rendering and dynamic UI.
- Integrated Radix UI and Lucide React for clean, accessible components and icons.
- Designed for speed and responsiveness across devices.

Tweet Sentiment Analysis – NLP-based Social Media Insights Tool

Python, NLP, Pandas, Scikit-learn, Matplotlib, GitHub Collaboration

- Developed a machine learning model to classify tweets as positive, negative, or neutral using Natural Language Processing techniques .
- Trained and evaluated multiple classifiers (Logistic Regression, Random Forest, SVM), achieving 89% accuracy on a labeled dataset.
- Visualized sentiment trends with Matplotlib to provide insights into public opinion on trending topics.

EXPERIENCE

Front-End Development Intern - Cognifyz Technologies - *Jan 2025 – Feb 2025*

- Contributed to real-world UI development projects using modern front-end technologies such as React, Tailwind CSS, and JavaScript.
- Collaborated with cross-functional teams to deliver responsive, user-friendly interfaces, showcasing effective communication and teamwork.
- Demonstrated strong attention to detail and a user-centered design approach in every task.
- Approached tasks with enthusiasm, a continuous learning mindset, and passion for emerging front-end technologies.

TRAINING/COURSES

- **Web Development**: Learned HTML and CSS at Main Flow-Service Limited.
- **Front-End Development**: Worked with JavaScript, React.js, and Tailwind CSS at Cognifyz Technologies

EDUCATION & OTHER

B.Tech in Computer Engineering RTMNU University, Nagpur – *2022–2026*

Core Strengths: Data Structures & Algorithms, GitHub Contributions, Problem-Solving Skills, Research-Oriented Work.

Interests : Photography, Video Editing, Gaming, Cricket
